EXPERIENCE

Hindu Society of Minnesota (HSMN), Maple Grove, MN — Web Design Intern

Mar. 2026 - Present

- Manage and maintain the Hindu Temple of Minnesota's official website, handling frequent content updates for events and announcements based on requests from the Temple
- Troubleshoot and resolve site issues promptly to ensure a reliable digital presence for the temple community.

Hindu Society of Minnesota (HSMN), Maple Grove, MN — Fundraising Intern

Jan. 2025 - Mar. 2025

- Supported the "Dare to Dream" campaign to help raise \$8M for the construction of a new Hindu Education Center.
- Assisted with donor outreach, communication, and event coordination to increase engagement.
- Helped organize efforts that contributed to more than \$3.3M raised during the internship period.
- Gained experience in teamwork, project coordination, and professional communication.

PROJECTS

Human Detection System — Computer Vision

Python • MediaPipe • OpenCV

Built a real-time human detection system using MediaPipe's machine-learning framework. Implemented computer-vision models to detect humans and track their presence in camera view.

SKILLS

Technical Skills: Python, Java, SQL, Microsoft Access, Microsoft Excel, Microsoft Word

Interests: Artificial Intelligence, Data Science, Cybersecurity

CERTIFICATIONS

Coursera Stanford University – Machine Learning Specialization

- Supervised Machine Learning: Regression & Classification
- Advanced Learning Algorithms
- Unsupervised Learning, Recommenders, and Reinforcement Learning

Microsoft Office Specialist — Access Expert (2019)

Certiport / Pearson VUE Business IT Specialist - Computational Thinking

AWARDS

Business Professionals of America (BPA)

Placed **8th nationally** in Database Applications; designed and optimized relational databases.

Placed **1st at regionals**, **2nd at state**, and **17th nationally** in Linux operating System Fundamentals; configured system services, navigated the file hierarchy, and managed processes.
